

Landforms

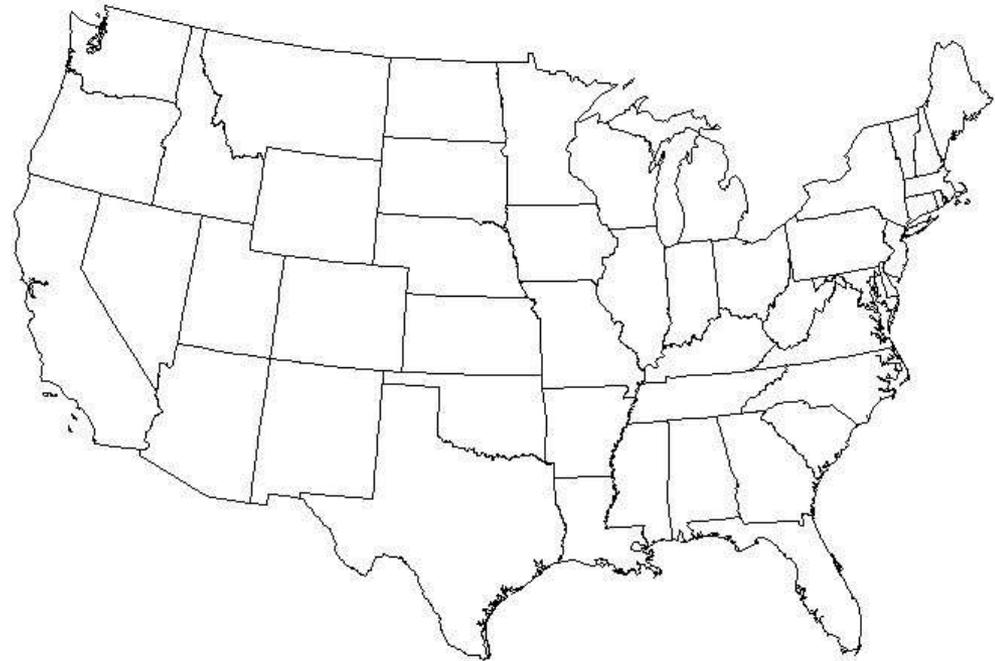

Tampa Bay

Bay

Part of a large body of water that extends into a shoreline, generally smaller than a gulf.

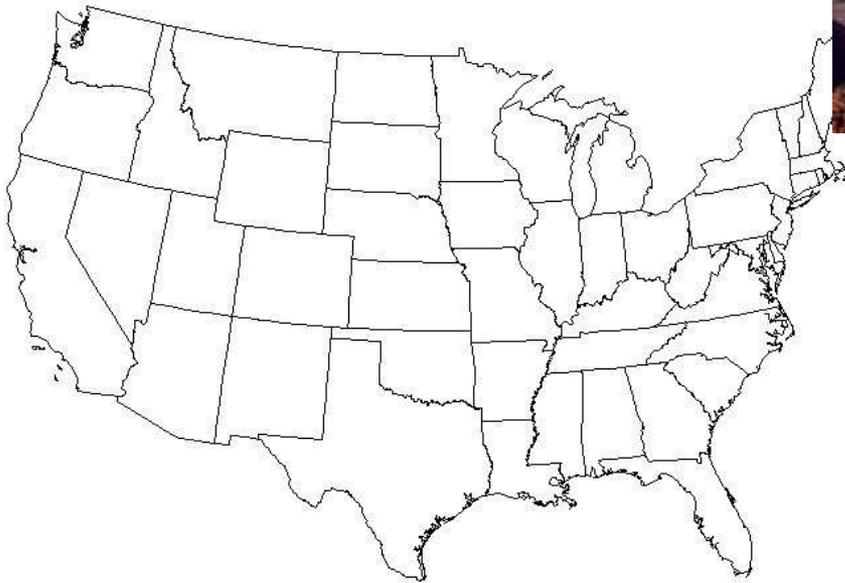

Boulder Canyon

Canyon

Grand Canyon

Deep and narrow
valley with steep
walls

English Channel

Channel

Wide strait or
waterway
between two
landmasses
that lie close to
each other;
deep part of a
river or other
waterway

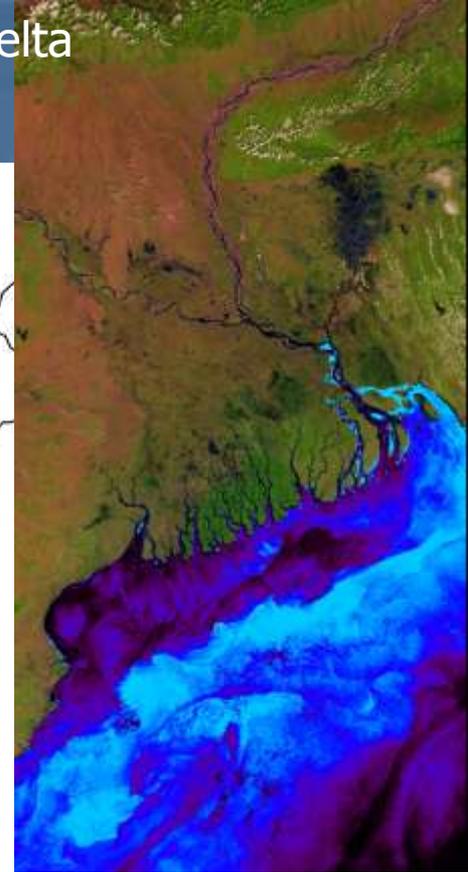

Continent

A black and white outline map of the world, showing the continents and major islands. The map is centered on the Atlantic Ocean, with North and South America on the left, Europe and Africa in the center, and Asia and Australia on the right. The word 'Continent' is written in large red letters across the top of the map.

One of the seven
large landmasses
on the earth

Delta

**Flat, low-lying
land built up
from soil carried
downstream by
a river and
deposited at its
mouth**

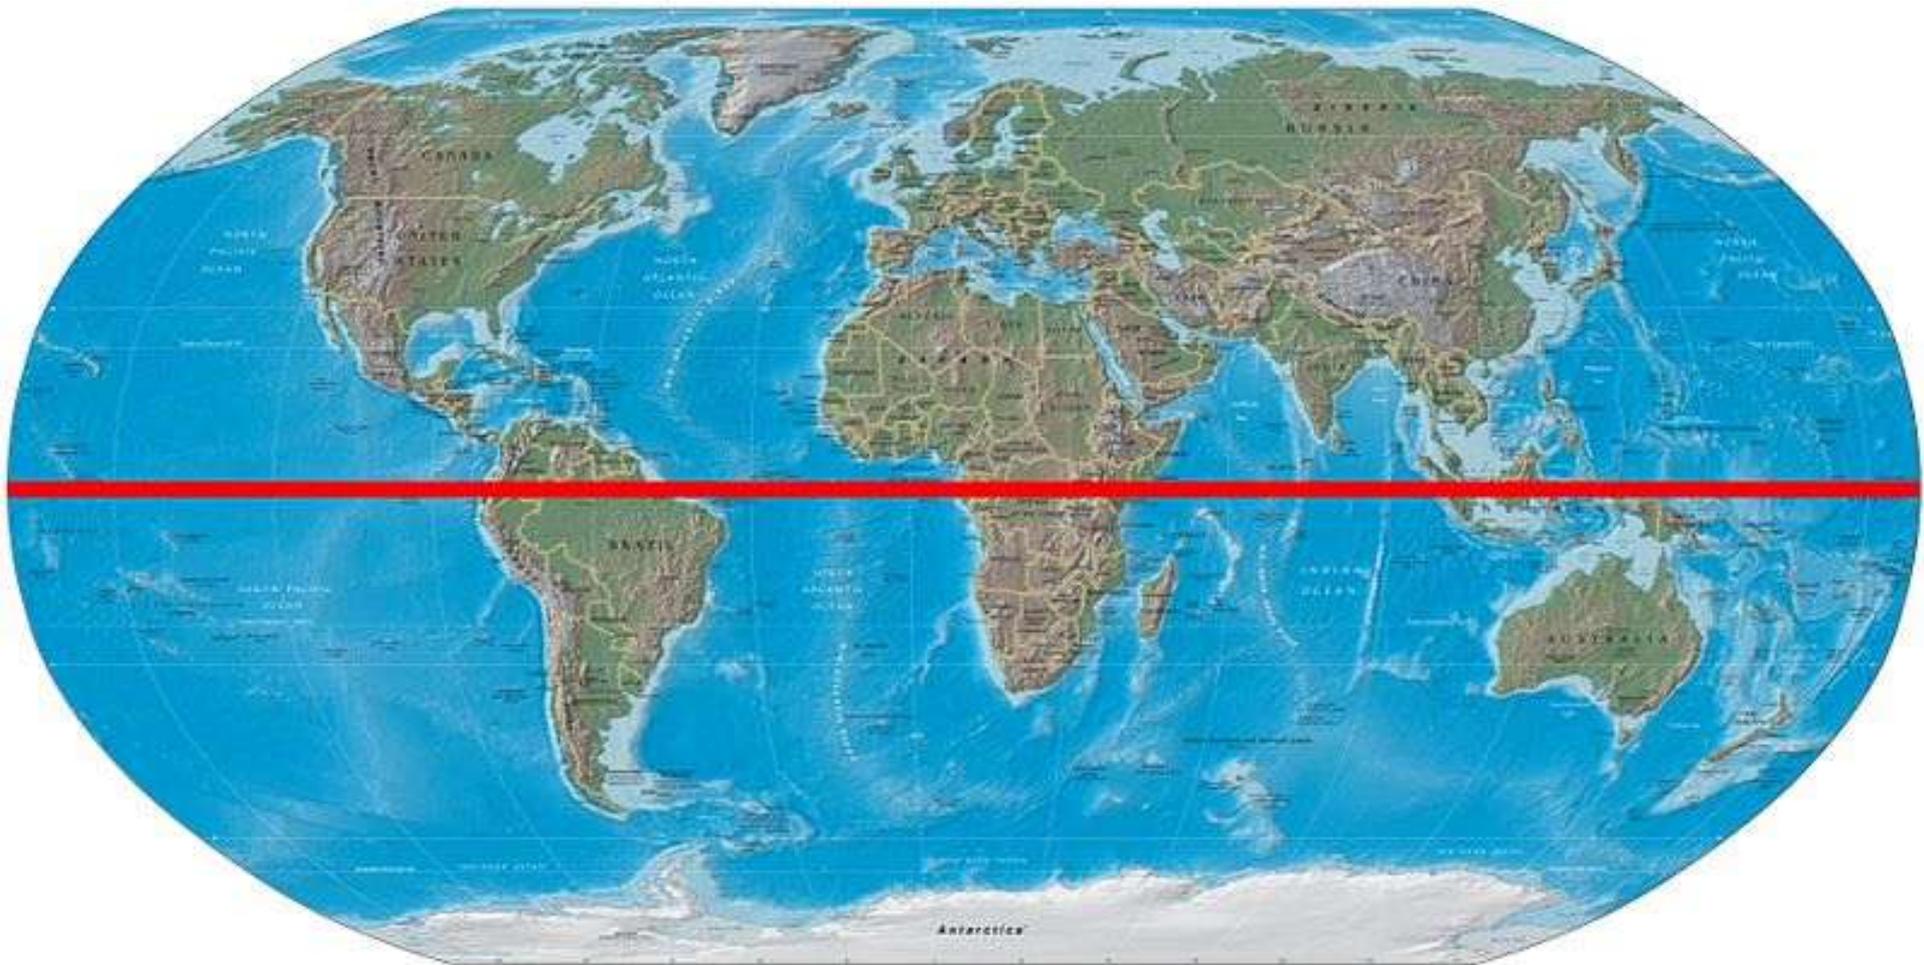

Divide

Stretch of high land that separates river systems

Equator

An imaginary line that runs around the earth halfway between the North and South Poles; used as the starting point to measure degrees of north and south of latitude.

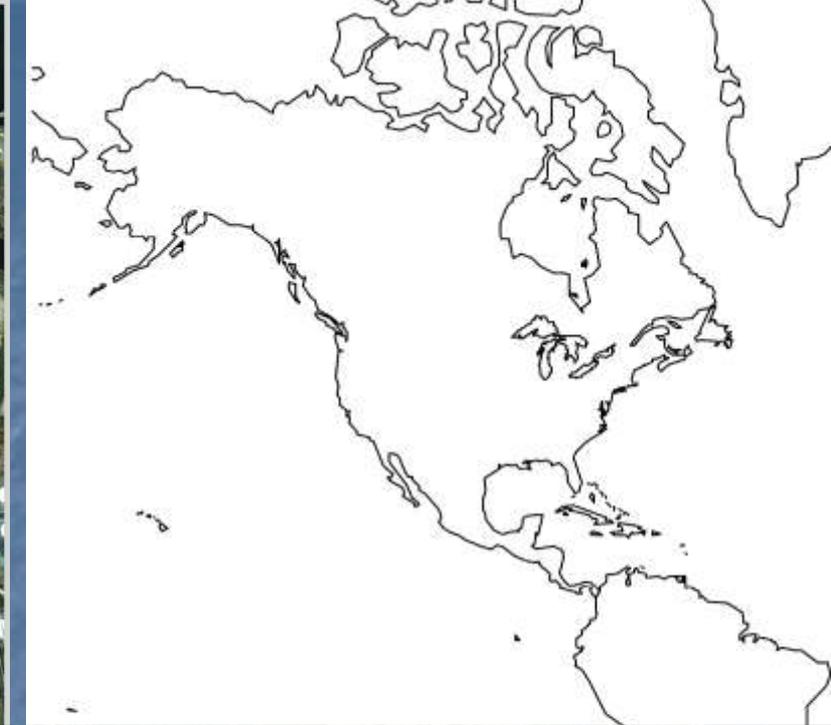

Gulf

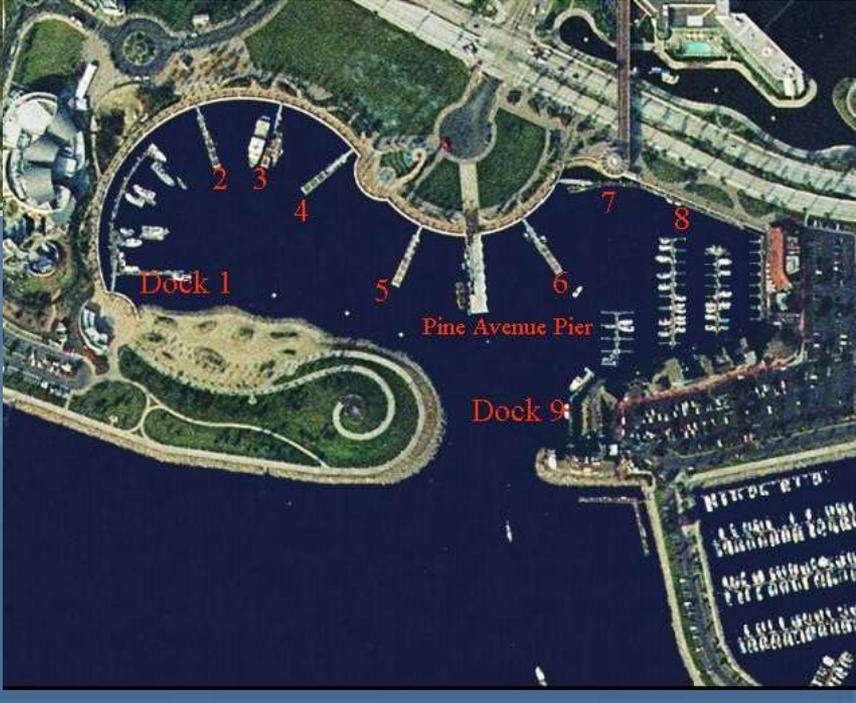

Part of a large body of water that extends into a shoreline, generally larger and more deeply indented than a bay

Persian Gulf

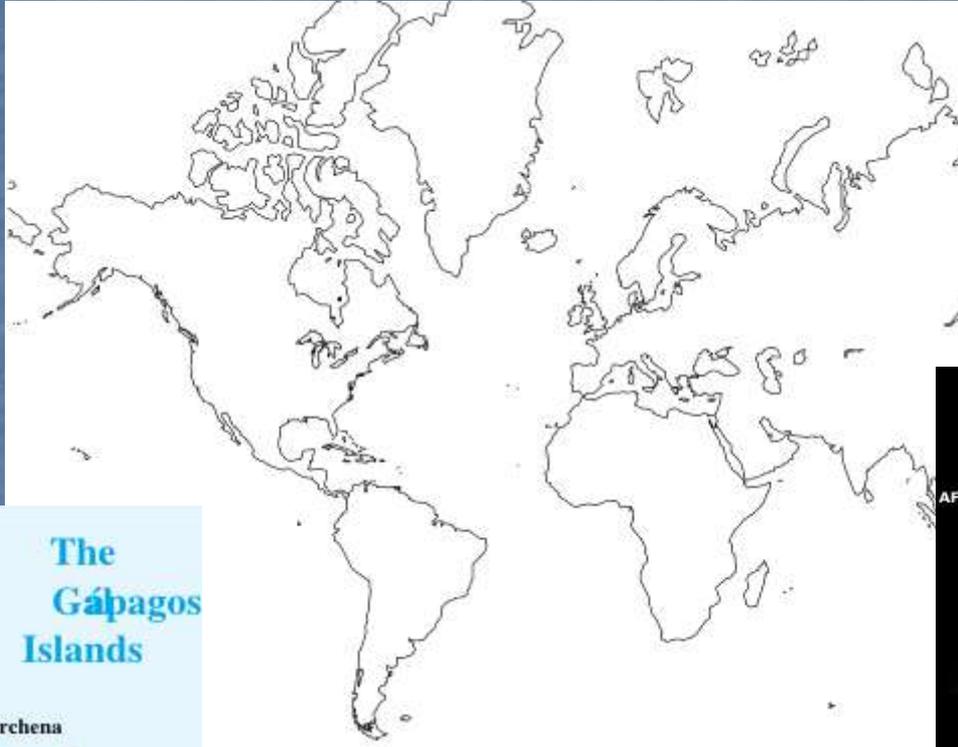

A sheltered place along a shoreline where ships can anchor

Island

Land area, smaller than a continent, completely surrounded by water

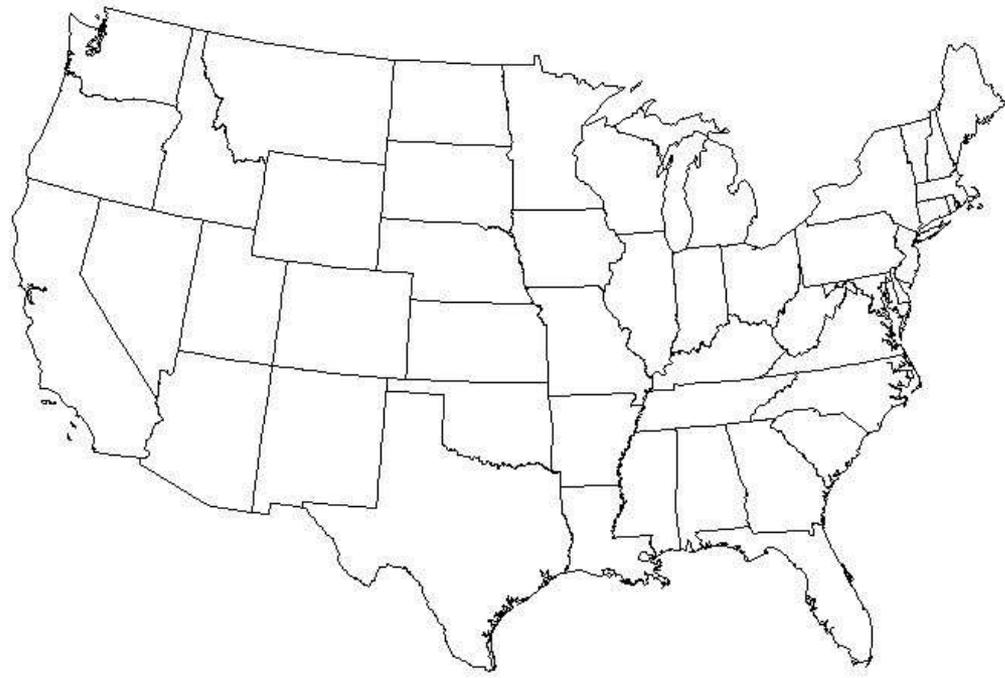

Isthmus

Narrow stretch of land connecting two larger land areas

Lake

A sizable
inland body
of water

Mount Everest

Mountain

Land with steep sides that rises sharply from surrounding land, generally larger and more rugged than a hill.

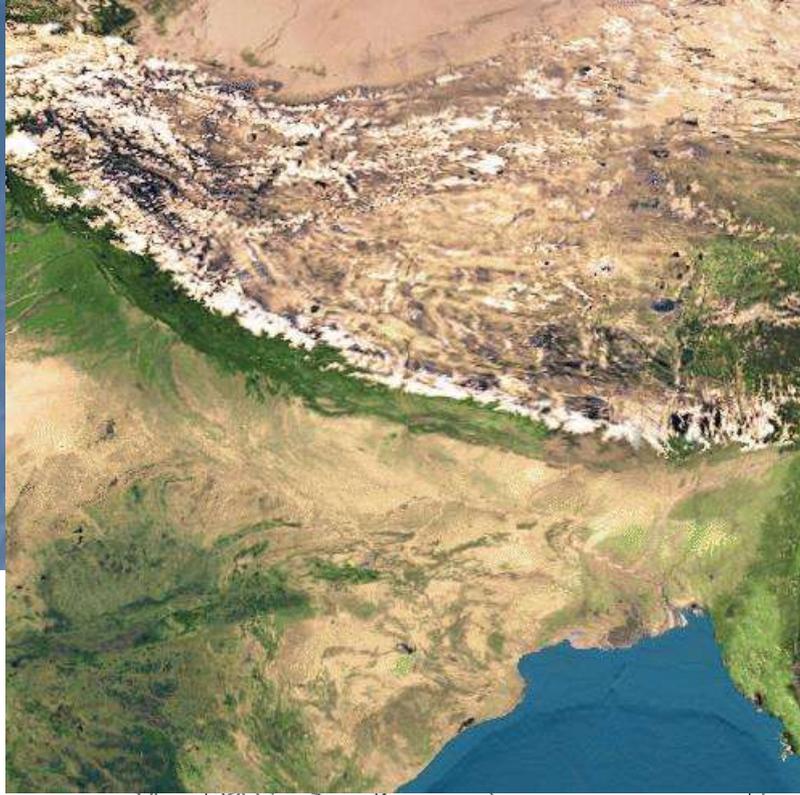

Mount Kilimanjaro

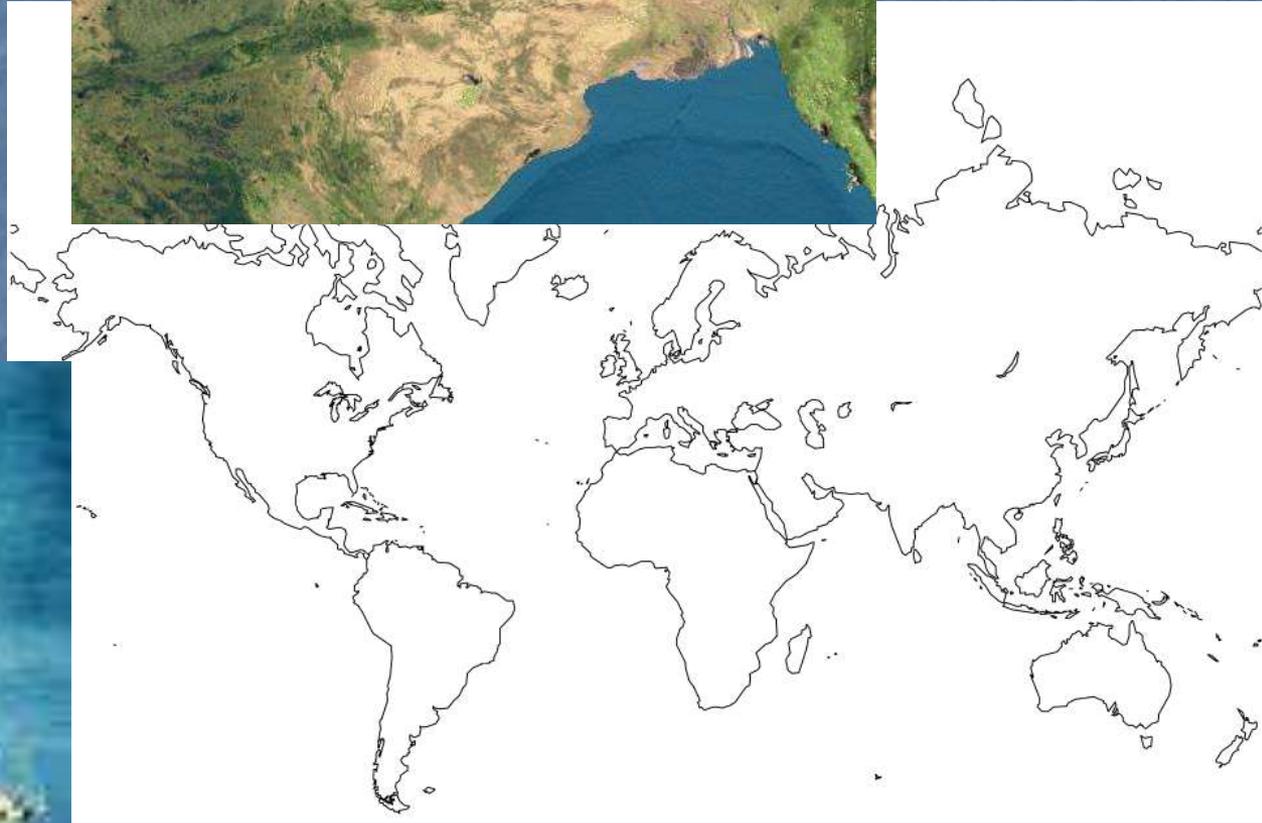

Mountain Range

A series of connected mountains

Himalayas

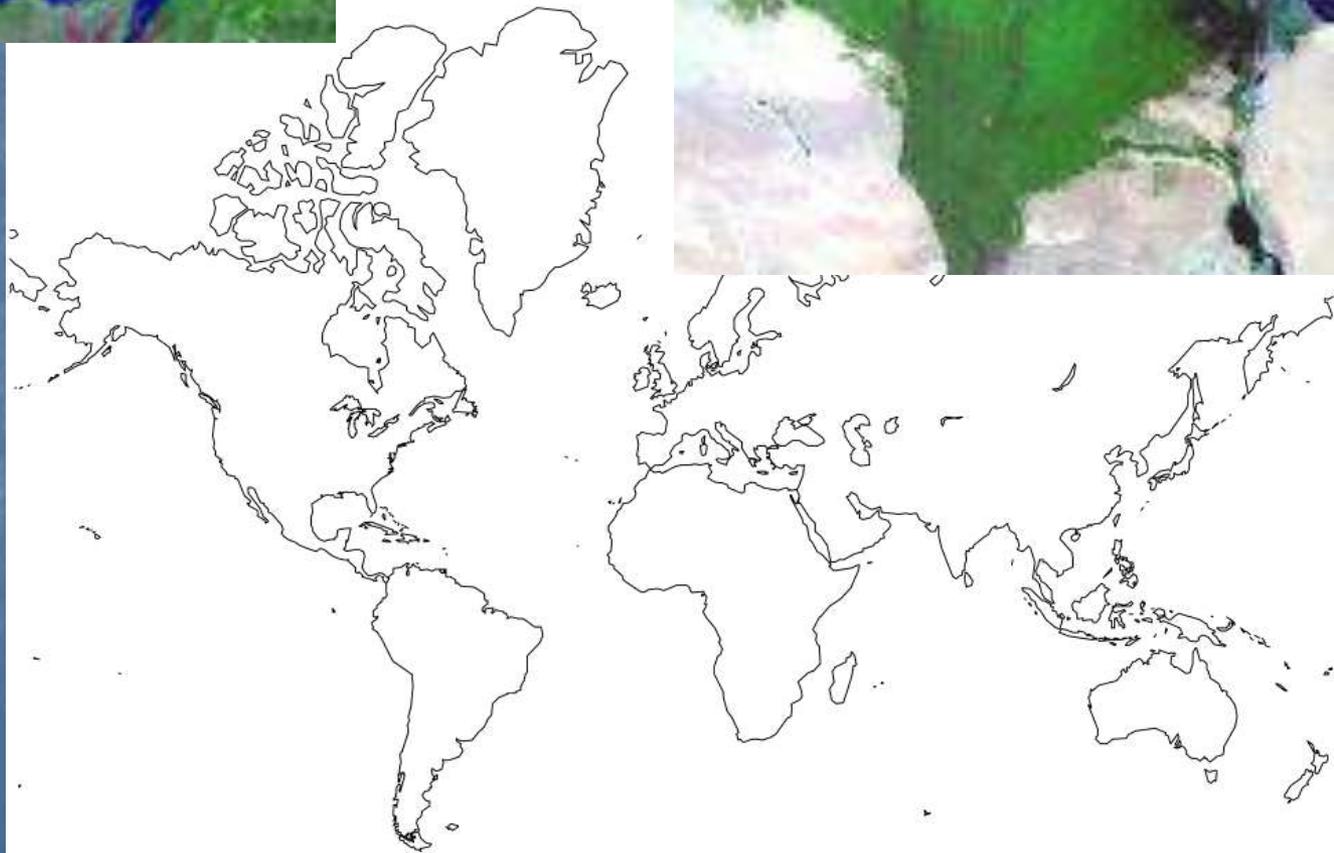

Andes Mnt Range

Mouth (River)

Place where a stream or river flows into a larger body of water

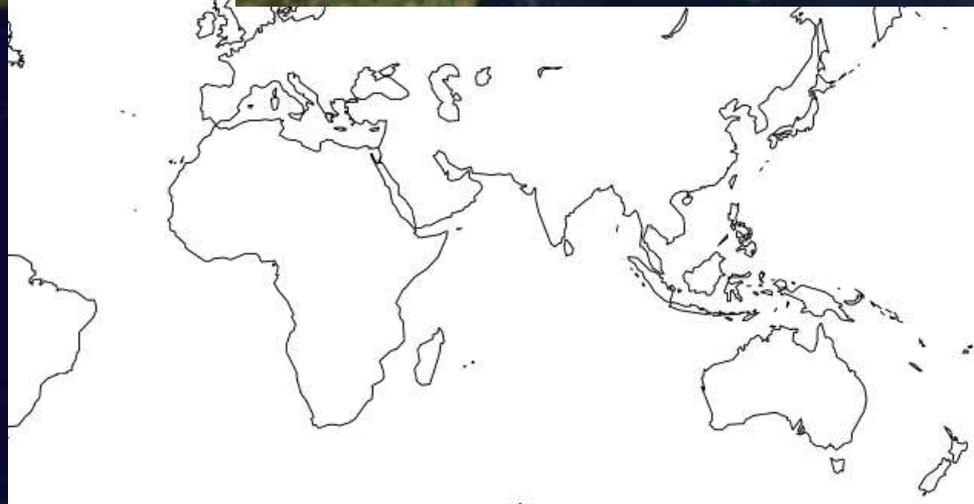

One of the four major bodies of salt water that surround the continents.

Ocean

Peninsula

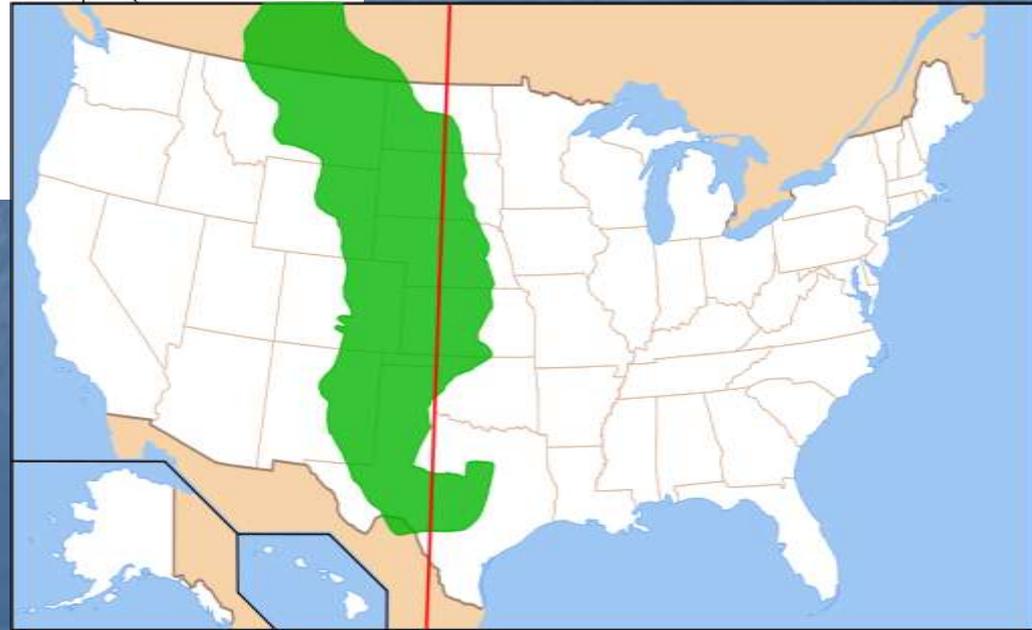

Body of land jutting into a lake or ocean, surrounded on three sides by water

Area of level
land, usually
at low
elevation and
often covered
with grasses

Plain

Large natural stream of water that runs through the land

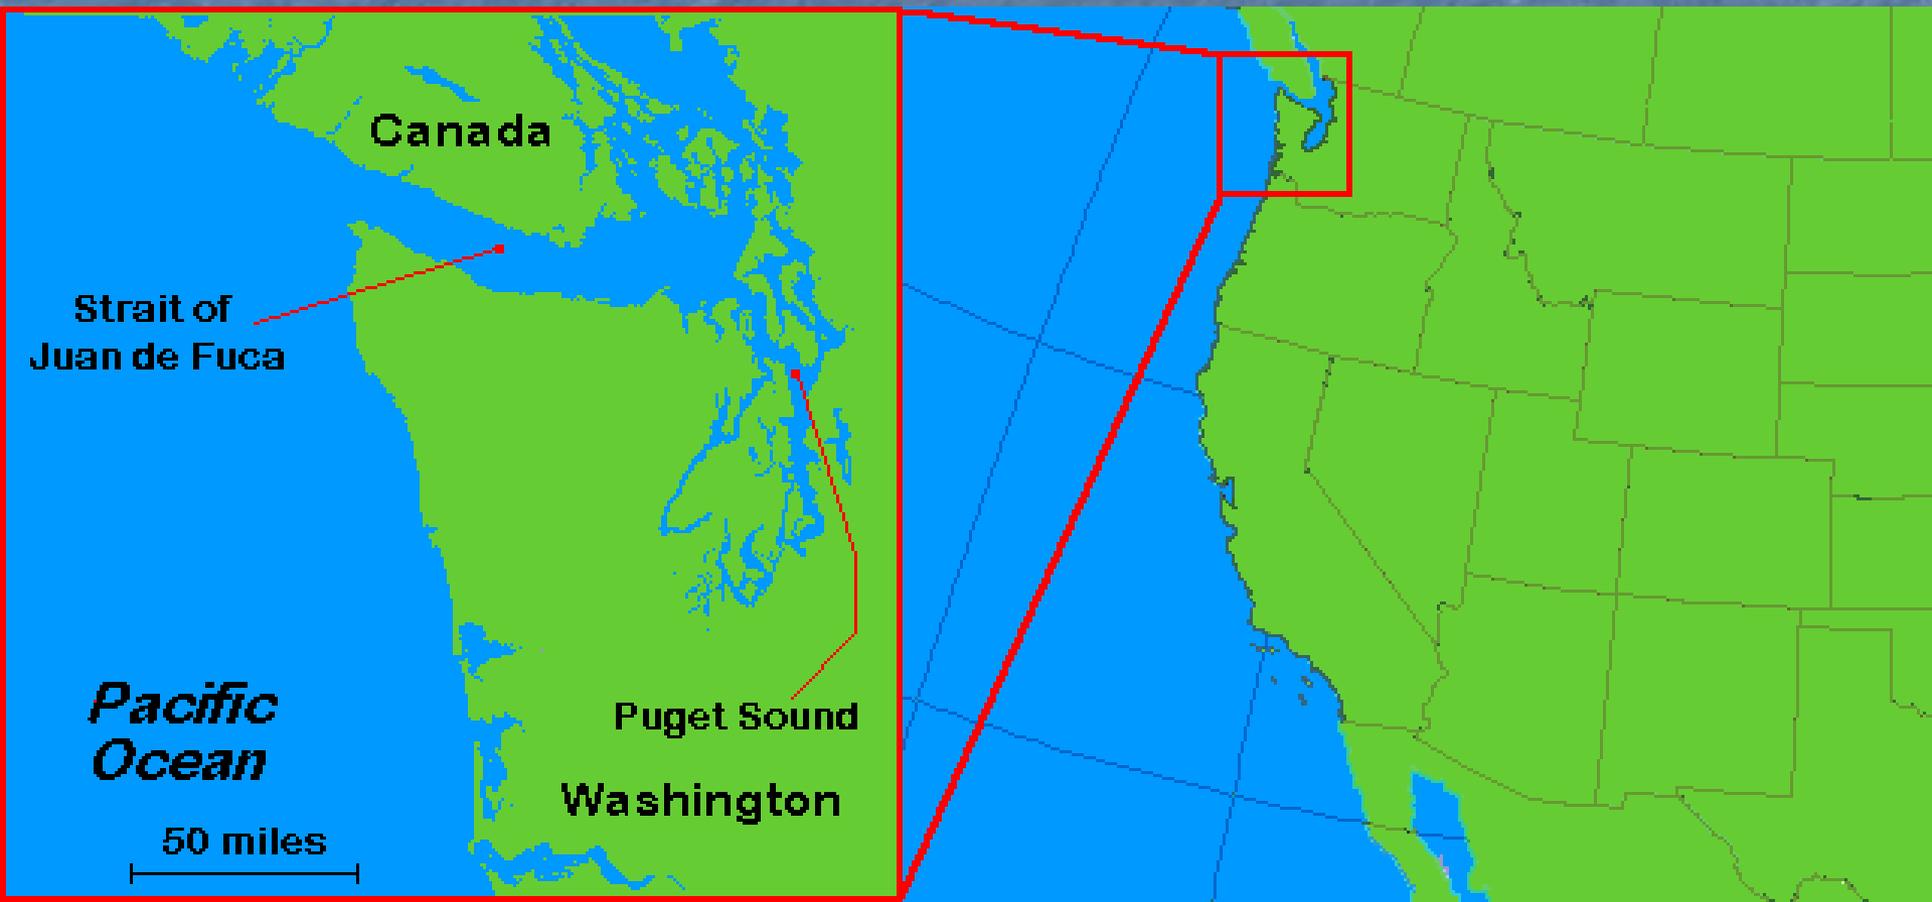

River

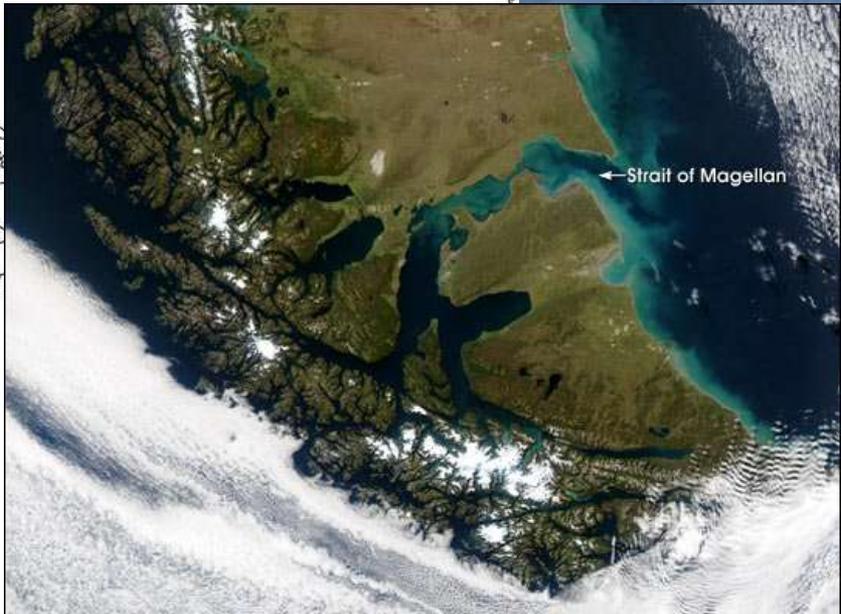

Large body of water completely or partly surrounded by land

Sound

Broad inland body of water often between a coastline and one or more islands off the coast

Mountain or hill
created as liquid rock
and ash erupt from
inside the earth

Volcano
